Now I'd like to get your feelings toward some of the groups and people living in our area. I'll read the name of a group of people and I'd like you to rate that group using something we call the feeling thermometer. Ratings between 50 degrees and 100 degrees mean that you feel favorable and warm toward the group. Ratings between 0 and 50 degrees mean that you have unfavorable feelings toward the group and that you don't care too much for them. You would rate the group at 50 if you don't feel particularly warm or cold toward them.
